## FEATURING "SULLY" SULLENBERGER

"208 SECONDS: A LIFETIME OF LESSONS"

Captain "Sully" Sullenberger, a Purdue University graduate, has been dedicated to the pursuit of safety his entire adult life. Sullenberger is best known for his heroic and historic acts as an airline pilot during the widely publicized "Miracle on the Hudson." He also is a safety expert, international speaker and best-selling author. Sullenberger will share his harrowing account of the now-famous emergency landing and discuss how his Purdue graduate studies in industrial-organizational psychology prepared him to manage that crisis and navigate other difficult life events.
